

Delaware Valley Computer Users Group

Wednesday, February 27th
Mark your calendars!

Topic:

DB2 Web Query for System I and Tips and Techniques for Query Optimization using Operations Navigator

Speakers: Steve Fier and Doug Mack

Steve Fier has been with IBM for 30 years. His areas of expertise include Application Development, DB2 for i5 OS, Windows Integration and server consolidation. Doug Mack's twenty-four year career with IBM spans many roles, including System/38 and AS/400 microprocessor development, AS/400 Data Warehouse Segment Manager for the Americas, Certified Software Sales specialist, and as the DB2 UDB for iSeries Marketing Manager. Doug Mack is a featured speaker at User Group conferences and meetings, IBM Technical conferences, and Executive Briefings.

PLEASE NOTE NEW LOCATION FOR THIS MEETING!

West Chester University Graduate Business Center
1160 McDermott Drive
West Chester, PA 19383

See link above for directions

Time:

8:00 – 8:45 am Registration & Breakfast
8:45 – 9:00 am IBM Announcements
9:00 – 10:30 am Presentation & Discussion
10:30 – 10:45 am BREAK
10:45 - 1:00 pm Presentation & Discussion

Cost:

Please register by Friday February 22, 2008

At www.dvcug.org or call (302) 285-0730

\$30 Full Members

\$40 Non-Member

\$40 not pre-registered

Doug Mack will be presenting IBM DB2 Web Query for System i™ which offers a set of modernized tools for a more robust, extensible and productive reporting solution than the popular Query for iSeries (also known as Query/400) tool. DB2 Web Query for System i preserves investments in the reports developed with Query/400 by offering a choice of importing definitions into the new technology or continuing to run existing Query/400 reports as is. DB2 Web Query provides the ability to query or build reports against data stored in DB2 for i5/OS databases through browser-based user interface technologies. Build new reports with ease through the Ajax-based WYSIWYG Power Painter component, or leverage the wizard-like Reports.

Steve Fier will be presenting Tips & Technique's for Query Optimization using some functions built into Operations Navigator.

This session is more than the cursory overview that is being held around the country, it will be more in depth for sure.

Learn more about this and hurry and register for this event and networking opportunities with your DVCUG friends. Visit our web page for more details.

About The Delaware Valley Computer User Group(www.dvcug.org)

Founded in 1981, the Delaware Valley Computer Users Group (DVCUG) is a community of business systems professionals. The primary focus of the organization is education related to IBM midrange computer systems and associated technologies. A general meeting and educational event is held multiple times per year. The DVCUG is run by volunteers who serve on the Board of Directors and various planning and event organizing committees. All members are encouraged and invited to participate in shaping the future direction of the group and contributing to its success. *DVCUG purchase/refund policy: Please be sure you can attend before prepaying. DVCUG cannot provide refunds since your payment goes toward the meal we order for you. If you pre-register and do NOT attend the meeting, you will be billed for the Full Meeting Registration Fee if not pre-paid.*
